NATIVE NAVIGATION

DIRECTIONAL DRILLING SPECIALISTS

Native Navigation is a full service directional drilling company headquartered in Western Colorado. We provide state of the art EM and mud pulse tools, and a team of experts that know how to get the job done.

Our North Seeking Gyro is the latest in inertial survey technology, providing superior accuracy for close proximity kick offs or cased hole well bore surveys.

Our rugged line of mud motors are field proven for long life and are maintained at a level, second to none!

OUR MISSION

Our future depends on the satisfaction of our customers and the moral, health and well being of our coworkers, employees and contractors. We strive to provide value for clientele, and a safe invigorating work environment for our employees and contractors. That coupled with strong business practices and dependable, state of the art equipment makes us a company to be benchmarked by all others and sought after by customers and employees alike.

NATIVE NAVIGATION

NATIVE DRILLING MOTORS

Native Navigation offers a complete line of quality and reliable drilling motors through Toro Downhole Tools.

Toro downhole motors utilize a field of proven design for maximum power and torque. Toro motors have been engineered for increased drilling penetration and durability. All Toro motors include the following components:

- **Upper crossover sub**
with available float bore
- **Safety Catch System**
for added security
- **Extended Power Section**
with performance stator elastomer
- **Articulated CV coupling**
for smooth operation
- **Adjustable Bend Housing (ABH)**
easily adjusted in field
- **All-Metal Bearing Section**
reliable, durable, and field proven
- **Forged Output Shaft with Bit Box**
for maximum strength.
